***More locations are open to receiving medical teams; if you have a location you are interested in going to, contact us at medical@mtw.org**

****Medical/Political Climate:**

Low Risk: Western country or major city in developing world

Intermediate Risk: developing country, travel outside of city

Substantial Risk: few Western amenities, marginal medical system, political unrest sometimes present, possible infectious disease

High Risk: few Western amenities, marginal medical system, travel to remote areas, environmental extremes/altitude, heat, etc, infectious disease

***Pregnant women are not allowed to travel on short-term teams outside of the United States**

For more information on any of these opportunities, please contact the MTW medical department at 678-823-0017 or medical@mtw.org .
