Lee & Jen Bigelow #10859

Belize, a small country of 300,000, has vast, unmet needs. Fewer than 12 percent of the population consider themselves evangelical Christians, in large part because there aren't enough trained people to spread God's Word. Belize has an estimated 60 public health clinics providing primary care, but most suffer from inadequate staffing, too many patients for their available resources, and lack of equipment and medicine.

God has uniquely gifted the Bigelows to help meet some of the spiritual and physical needs of the Belizean people. They are joining a team doing medical

outreach and church planting in northern Belize. The Presbyterian Medical Clinic in Patchatkan provides affordable and accessible Christ-centered care for the local people. Lee, who owns a construction business, will be using his administrative skills in the medical clinic as well as serving in men's ministry, and helping with short-term work teams. Jen, who is a family physician, will be providing medical care and ministering at the village clinic and in the community. Pray that God will use the Bigelows' ministry and medical skills to further His kingdom work in Belize.
