DAVID AND BROOKE DANIEL #11842

David and Brooke both became Christians through campus ministries during their undergraduate studies and later met at the Medical College of Georgia. Both work as physical therapists and have ministered together to healthcare students with Medical Campus Outreach (MCO). David served as a campus director of MCO for 10 years.

The MCO vision, to "train the next generation of healthcare providers in Jesus' name," has resulted in hundreds of Christ-like providers serving in the U.S. and globally.

The Daniels felt called by God to pray for a team of healthcare providers to extend the vision of MCO to an international campus. That prayer was

answered with a team of doctors, nurses, therapists, and a dentist who will minister at the university in Cusco, Peru. David will serve as team leader for this medical discipleship team.

Cusco is the unofficial capital of the Quechua, a largely unreached people group of 15 million in the Andes Mountains. In addition to evangelizing and discipling students, they will be involved in serving the poor with their medical skills. Please pray for David and Brooke as they seek to train the next generation of Peruvian healthcare students to reach Peru for Christ through medicine.
