

FOR PARENTS

“Seeds of Hope” is the Mission to the World Children’s Project for 2011. Through the project video, your child is learning about Haiti and the children who are cared for by Souls Winning Ministries (headed by MTW’s national partner Pastor Jean Paul and sponsored by Reformation Hope, Inc.). The theme of the video is “hope” in all its forms: the hope provided by basic medical care, education, and good food, but most of all the hope found in Christ. Your child is learning about telling and showing the good news of the gospel.

The project focuses on providing healthy food for the more than 60 children in the orphanage who presently subsist almost entirely on a diet of beans and rice. The Haitian government has provided land to the church on which to grow food for the children. The first priority for the funds from this project will be to supply seeds that will grow into a harvest of fresh fruits and vegetables—seeds of hope. The remainder of the funds will be used for other needs of the project, which is supervised by Reformation Hope (www.reformationhope.org).

What can you do? It would be great if you’d go to MTW’s website and watch the video. You can listen and ask questions as your child tells you what he or she is learning from each segment of the video. The memory verse is below, and you could talk with your child about what it means. You can pray with your child for the needs of the children in Haiti, especially their need of Christ. You can help your child learn to give, perhaps providing small jobs to earn money or making it a family project. And you can contribute as well!

“In Jesus’ name, the nations will put their hope.” Matt. 12:21
