

# Vision Trip to Arequipa, Peru

## Ministry Description

Nestled between the coast and the southern highlands, Arequipa is one of the most beautiful and interesting cities in Peru, and it's second largest with a population near 1 million people. Arequipa exists in the shadow of the towering El Misti Volcano which rises to over 19,000 feet. El Misti's perfect snow-capped cone is thought to have been worshipped by ancient Incas, yet now lays dormant.

In the midst of this same shadow, two MTW families, The Bonhams (Nathan and Nikki), and the Gutierrezes (Nathaniel and Alicia) are working to bring the light of the gospel to a place mired in a religious syncretistic mix of Roman Catholicism and Animism.

## Project Description

MTW is looking for several adventurous individuals interested in making the trek to Arequipa to experience first hand and to see the work of these two families. You will see the scope of ministry and hear about their vision of establishing Christ-centered churches and leaders in an area that has been resistant to the gospel. You will learn how you can better support, pray for and serve this most important work.

## Housing/Transportation

The prayer team will stay in hotels

## Dates

August 11-18

## Project Costs

\$941
